

Stream**Flow** Finance

Value Distribution Platform

Solana Ignition Hackathon

Distribute value

Align incentives

StreamFlow Finance

Value Distribution Platform

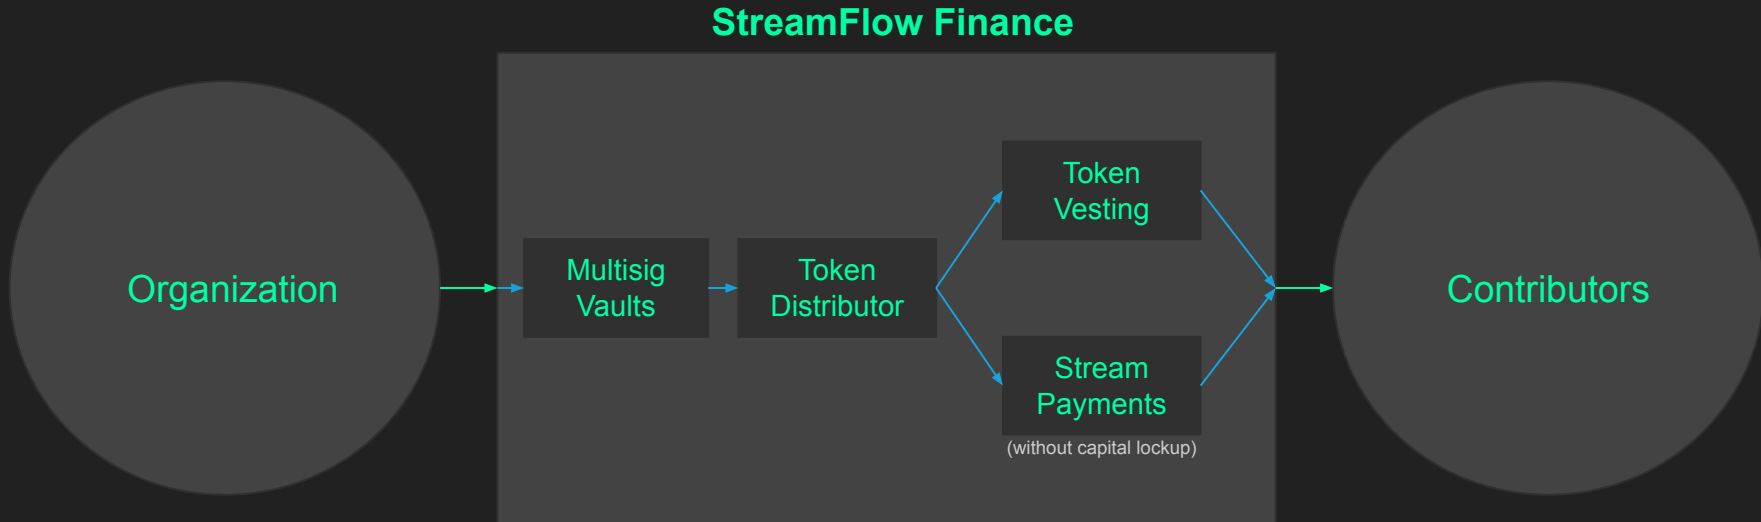

Decentralized & permissionless. Inclusive, so anyone can participate.

Trust-minimized & verifiable. Programs are open-source and verifiable. Deployed by a multisig.

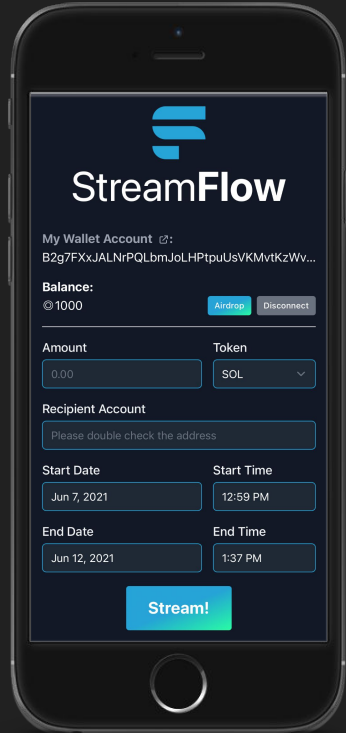

Real-time.  SOLANA's ultra-cheap transactions are confirmed in less than a second.

Simple & intuitive. Frictionless and humane user interface is a top priority in bringing adoption.

Composable tools
